# COFFEE PATH

WHERE YOU CAN TRACE THE BEANS OF THE 22 MEMBERS OF COOPERATIVE COFFEES ALL THE WAY FROM THE FARM TO THE ROASTER.

Cooperative Coffees is based on the model of trade as long-term partnerships between farmers and roasters. By scrutinizing our document trail, you can see how we put this idea into action.

This site is for those tracing a specific lot # of coffee – and for anyone interested in learning about a higher standard of Fair Trade.
